

PUBLIC HEALTH & SAFETY WORKING TEAM

CHOICE NEIGHBORHOODS NEW ORLEANS

Let's Get to Work -Together!

The Choice Neighborhoods Initiative encourages communities and governments to work collaboratively to leverage HUD's investment towards further improvements in the community. In doing so, the goal of Choice Neighborhoods everywhere is to formulate an effective, inclusive mechanism for this collaboration in order to develop broad-based action plans that incorporate diverse concerns, existing plans and ideas, and strategies to increase resources.

Purpose:

The Public Health and Safety working team will address

- health concerns and needs of the community
- mentoring programs
- health clinics
- neighborhood watch programs or other safety programs

What can I expect the working teams to do?

Work together to build consensus and understanding across the footprint on health and safety issues within the community.

Work together with Iberville Working Team Stakeholders to identify health programs and safety initiatives to better serve the resident community.

How can I contribute?

Program Priorities for July through December of 2012 will be identified through the working team. Help us identify the needs of your community.

Other Potential Programs:

- Improved infrastructure and urban design targeted toward safer and healthier communities, such as improved lighting, sidewalk, and greenspace
- Work with residents and NOPD to implement a neighborhood watch program
- Increased access for residents to Tulane Health Center's mental and physical health services

Programs Coming Soon Across CNI:

NOAIDS Task Force - Health Assessment

Conducting a needs assessment to find out about the health and wellness concerns of the people in the community. Our goal is to create a community health center and healthy medical home

COPS - Community Oriented Policing Services

Workshops designed to promote collaborative partnerships between law enforcement agencies and the community.
